PROFESSIONAL SUMMARY

Infrastructure and IT Administrator with 4+ years of hands-on experience managing enterprise networks, Windows and Linux servers, and IT security systems. Proven ability to deploy and administer Microsoft 365, Active Directory, and Windows Server environments. Skilled in Layer 2/3 network configuration, system monitoring, end-user support, and IT documentation. Seeking a role as an MS 365 Administrator, IT Administrator, or Windows System Administrator.

TECHNICAL SKILLS

Microsoft 365 & Windows: Microsoft 365 Administration, Exchange Online, SharePoint Online, Microsoft Teams, OneDrive, Active Directory (AD DS), Group Policy (GPO), Windows Server 2019/2022, DHCP, DNS, IIS, RAID, Backup & Recovery

Networking: TCP/IP, OSI Model, IPv4/IPv6, VLANs, STP, OSPF, EIGRP, BGP, VPN, SSH, SSL/TLS, HTTP/HTTPS, Inter-VLAN Routing, EtherChannel, Layer 2/3 Switching

Systems & Cloud: Linux (Ubuntu, CentOS), Windows Server, AWS (EC2, S3, IAM, VPC), Zabbix, Apache, Nginx, Bash Scripting

Tools & Platforms: NinjaOne, Autotask, ITGlue, Pax8, ProofPoint, Huntress, Autoelevate, Addigy, OnePassword, GrandStream (GWN7001/7002/7003)

Core Competencies: Troubleshooting, System Monitoring, Network Security, Firewall Management, Hardware Maintenance, IT Documentation

WORK EXPERIENCE

Sr. System Administrator

May 2026 – Present

Mindsquare Technologies (Client- Manipal Hospitals)
India

Bangalore,

Administered and maintained Windows Server environments, ensuring high availability, performance, and security across enterprise infrastructure.

- Managed Active Directory services, including user and group administration, Organizational Units (OUs), Group Policy Objects (GPOs), and access management.
- Configured and supported DNS, DHCP, file servers, and shared resources to ensure reliable network and system operations.
- Provided Microsoft 365 (Office 365) administration, including user provisioning, mailbox management, and troubleshooting.
- Executed monthly Windows patching, hotfix deployments, BIOS/firmware upgrades, and vulnerability remediation activities in compliance with organizational standards.
- Created, reviewed, and implemented Change Requests (CRs) for server maintenance, patching, system upgrades, and planned reboots following ITIL best practices.
- Monitored Active Directory replication, performed health checks, and resolved directory service issues to maintain operational stability.
- Managed incident, service request, and problem tickets through ticketing systems, consistently meeting SLA's targets and reducing resolution times.
- Supported data center operations, including server administration, infrastructure monitoring, security compliance, and routine maintenance activities.
- Mentored and provided technical guidance to L1 support engineers, enhancing team productivity, knowledge sharing, and first-level issue resolution.

IT Administrator (Hardware & Software)

Mar 2025 – Feb 2026

LMS India Pvt. Ltd.

Noida, UP, India

- Deployed and administered a Domain Controller from scratch on Windows Server 2022, implementing Group Policy Objects (GPOs), organisational units, and user account management for 100+ users.
- Configured and managed a centralised DHCP and DNS server on Windows Server 2022, optimising IP allocation and reducing address conflicts across the enterprise network.
- Deployed Zabbix network monitoring on Linux servers, enabling proactive alerting and reducing mean time to detect (MTTD) for infrastructure incidents.
- Configured and maintained enterprise network infrastructure including GrandStream routers (GWN7001/7002/7003), managed switches, and access points.

- Enforced network security policies, managed firewall rules, and conducted regular system audits to maintain compliance and reduce vulnerabilities.
- Ensured LAN/WAN uptime through redundancy and failover mechanisms; diagnosed network latency, packet loss, and bandwidth issues using ping and traceroute tools.
- Maintained detailed documentation of hardware inventory, network topologies, and server configurations in alignment with ITIL best practices.

Technical Support Engineer (Linux & Network)

Jan 2024 – Mar 2025

Veher Interactive Pvt. Ltd.

Kolkata, West Bengal, India

- Installed, configured, and monitored Linux and Windows servers with RAID arrays and automated backup solutions, maintaining 99%+ uptime.
- Administered Layer 3 switch configurations, routing protocols (OSPF, static routing), and network segmentation in a hybrid on-premise and cloud environment.
- Configured and managed Linux services including DNS, Apache, and SSH; streamlined firewall rules to improve security posture.
- Analysed network performance metrics and implemented corrective measures that reduced unplanned downtime by resolving recurring connectivity bottlenecks.
- Collaborated directly with clients to diagnose and resolve infrastructure and connectivity issues, consistently meeting SLA targets.

IT Support Engineer – L1 Network Support

Dec 2022 – Jan 2024

Printlink Computers and Communication Pvt. Ltd.

Bhubaneswar, Odisha, India

- Configured and maintained Cisco Layer 2/3 switches, ensuring seamless VLAN connectivity and optimal network performance for data centre operations.
- Monitored CPU, memory, and storage utilisation, responding to critical alerts to prevent outages and maintain system health.

- Performed preventive maintenance on data centre hardware; assisted with server backup procedures and network disaster recovery drills.

IT Support Engineer

Persistent Networks Pvt. Ltd.

Jan 2022 – Dec 2022

Bhubaneswar, Odisha, India

- Installed, configured, and maintained routers, switches, and user devices, ensuring continuous network reliability for business operations.
- Performed root cause analysis on reported network incidents, reducing repeat issue occurrence through structured troubleshooting.

EDUCATION

B.Sc. Computer Science – First Class

2018 – 2021

BCCST, Utkal University, Bhubaneswar, Odisha

10+2 (PCM) – First Class

2015 – 2017

GBHSC, JKBOSE, Bhaderwah, J&K

SOFT SKILLS & LANGUAGES

Soft Skills: Communication, Problem Solving, Team Collaboration, Leadership, Time Management, Attention to Detail, Adaptability

Languages: English (Professional Proficiency), Hindi (Conversational)
